STRUCTURAL

- We warrant to the original retail purchaser that the flooring in its original manufactured condition will be free from defects in lamination and assembly for the warranty period.

FINISH

- We warrant to the original retail purchaser that the wear layer on the surface of the flooring planks will not wear through or separate from the core under approved residential or commercial use, when maintained in accordance with the recommended installation and maintenance guidelines for the length of the warranty (ex. 3-year, 25-year, lifetime). "Wear layer" is defined by the total thickness of the top 20mil protective layer. "Wear through" is defined as a complete loss of this finish wear layer, so that the printed décor film itself is affected and exceeds 2% of the installed area. Gloss reduction, indentation, scratches, and/or dull appearance are not considered a product defect or surface wear. The Elements SPC care and maintenance guidelines provided online at www.my-nfp.com are not intended to be an exclusive list. Please note, floors with a high gloss finish will tend to show scratches and dents more easily. These types of wear are considered normal.

QUALITY ASSURANCE

- The manufacturer warrants to the registered purchaser of our flooring products that the floor will meet the manufacturer quality standards. The intended end user and the installer should have a clear understanding of expectations of the color, installation, and layout. Carefully inspect the products before installation for any milling, dimensional, or visual defects. Since SPC is imitating a natural product, there will be natural variations in color, tone, texture, and graining that are not covered by this warranty. Flooring color

variations or darkening are a natural occurrence and may be due to exposure to sunlight or natural aging. The samples may not always exactly match the actual flooring received. Inherent variations in grain or color are not considered as manufacturing defects. This pre-installation warranty expires upon installation.

WHAT ARE THE CONSUMER'S RESPONSIBILITIES UNDER THIS WARRANTY?

- You must register your new floor at www.my-nfp.com within the first 60 days after installation. The manufacturer may request proof of pre-installation moisture documentation from you when submitting a claim under this warranty. The manufacturer strongly advocates the use of licensed, experienced installers for best results. If using a professional wood flooring licensed installer, you may be asked for the name and license number when submitting a claim.
- The installer must thoroughly inspect every flooring plank in each carton before permanent installation. The manufacturer is not responsible for any labor or damages incurred by delivery delays, flooring product not matching the samples, wrong product installed, dye lot (mismatch), installation, or jobsite conditions. The installer/owner is the final inspector and assumes the responsibility to determine if the product is correct and acceptable before installation begins.
- To ensure repairs can be made in the future, it is required a minimum of 2% of the floor be kept in unopened boxes in a temperature-controlled room. This 2% can be used by the manufacturer for plank replacement as needed.
- The flooring must have been installed in accordance with all manufacturer installation guidelines.
- A minimum of 5% extra material should have been added for waste factor to the actual footage needed as allowance for product culling, cutting, waste, and mismanagement.
- Maintenance must be properly performed as needed in accordance with the manufacturer care and maintenance guidelines.

WHAT IS THE MANUFACTURER'S RESPONSIBILITY UNDER THIS WARRANTY?

- **PRE-INSTALLATION** - Should the material be doubtful as to grade, manufacturing, texture, color, graining, dye lot, excessive shipping damage, factory finish, those defective materials shall not be more than 5% of total. If the manufacturing defects exceed 5%, the manufacturer will supply additional material for replacement and cover standard shipping fees to the retailer.
- If any of the covered events occur within the warranty period, the manufacturer will furnish another comparable flooring that it manufactures (of similar pricing, specifications, and quality) for either the repair or the replacement flooring material of the defective area, at the manufacturer's sole discretion. SPC floors that were installed correctly will be eligible for labor cost reimbursement up to \$2.49 per square foot of the installed area. If the floors were installed incorrectly by a non-licensed installer, the manufacturer assumes no responsibility for any labor cost associated with such repairs or replacement. In the event that we are unable to correct the problem after a reasonable number of attempts, or if the replacement or repairs fail in the same manner a second time, we will refund the wholesale portion of the purchase price for the section of failed flooring.

- These warranties do not cover removal or replacement of cabinets, electrical fixtures, plumbing fixtures, handrails, transitions, moldings, furniture, or any other fixtures of the jobsite/home. These are the exclusive remedies under this warranty if a defect or other warranted condition occurs. We reserve the right to verify any claims or defect by inspection and have samples removed for technical analysis.
